

Caution: If your paper contains too many direct quotes you may not be meeting the assignment criteria, because you need to elaborate in your own words on subject content to demonstrate your understanding of the material. Please ensure your paper contains less than 20% obtained material! For every one sentence you use from a source, you should write at least 3-5 of your own.

NO

If you did not paraphrase or summarize from any sources then what you have written is entirely your own and no plagiarism has occurred. Please review the assignment criteria to determine if additional resources were required. Remember that statements of fact taken from external sources need to be cited to tell the reader where you obtained the information.
